

Kaitoke Safety Zones

The two safety zones on this range are

Primary Zone; the southern most shooting bench facing the side hill

Secondary Zone; The area to the side of the mound facing up into the side gully

All handguns are to be bagged and unbagged either on the firing line under RO commands or in the safety zones. At all other places on the range handguns are to be carried in a box/bag or an approved holster.

No live ammunition is permitted to be carried into the safety zones

Dry firing and practice is permitted in safety zones.
